PROFILE

Bangladesh-based business builder working across strategy, AI, digital products, automation, branding, content and venture operations. I turn practical needs into products, brands and operating systems, and I test the work inside real ventures in retail, fashion, travel, property, technology and legal-tech. I build AI workflows that work in Bangla, Banglish and English.

CORE CAPABILITIES

- Business models, pricing, offers & operating plans
- Websites, web apps & product UX direction
- Brand systems, social creative & campaigns
- AI training for teams, taught in Bangla
- AI agents, prompt systems & workflow automation
- Digital marketing, funnels & performance ads
- AI video, character & story systems
- Multi-venture operations & vendor coordination

VENTURES & SELECTED WORK
